

Master Store Admin Manual

Complete Step-by-Step User Guide & Operations Cheat Sheet

1. Dashboard Overview

The Dashboard is your main command center. Path: `/admin`

- **Total Revenue:** Gross earnings from all non-cancelled orders, with a sub-breakdown of *Paid Revenue*.
- **Total Orders:** Overall orders placed by buyers, featuring a live *Pending Dispatch* counter.
- **Active Products:** Total catalog items count, highlighting low-stock warnings.
- **Actionable Alert Cards:**
 - **Pending Dispatch:** Orders waiting to be packed and handed to couriers.
 - **Return Requests:** Customer return or exchange requests waiting for review.
 - **In Transit:** Shipments currently out for delivery with courier partners.
- **Interactive Calendar Revenue Filter:** Filter sales trends by *Last 7 Days*, *Last 30 Days*, *This Month*, or *All Time Sales*.

2. Product Catalog & Inventory Management

Manage products, pricing, variants, and stock levels. Path: `/admin/products`

How to Add a Product Step-by-Step:

1. Click **" + Add Product "**.
2. **Basic Info:** Fill in Product Title, Brand, Category, Regular Price, and optional Sale Price.
3. **Rich Text Description:** Format product descriptions in bold, italics, bulleted lists, or specs tables using the built-in editor.
4. **Attributes:** Select relevant options for Gender, Hand Preference, Flex, Loft, and Shaft Material.
5. **Images:** Upload product photos. The first image uploaded automatically becomes the main cover photo.
6. **Variants (Color Groups & Size Matrix):** Add Color Groups with color hex swatches, specify available sizes, and set exact stock counts per size.
7. **Badges & Display Options:** Toggle *New Arrival*, *Featured*, *On Sale*, or stock status.

3. 🎨 Visual Canvas Banner Builder

Create and customize homepage promotional banners visually. Path: `/admin/banners`

- **Visual Canvas:** Click and drag text blocks (Title, Subtitle, Eyebrow, Buttons) directly on the live image preview.
- **Overlay Opacity:** Adjust background image darkness slider (0% to 100%) for maximum text contrast.
- **Call-to-Action Buttons:** Customize up to 2 CTA buttons per banner with custom colors and button sizes.
- **Smart Link Builder:** Link buttons to specific categories or custom URLs.

4. 📦 Orders & Invoice Printing

Fulfill orders and print parcel invoices. Path: `/admin/orders`

[New Order Placed] → (Status: Processing)

[Pack Parcel & Hand to Courier] → Add Courier Name & Tracking Code → Status: Shipped

[Delivery Confirmed] → Status: Delivered

- **Courier Tracking:** Update order status to *Shipped*, add Courier Name (BlueDart, Delhivery, DTDC, etc.) and Tracking ID.
- **Print Invoice:** Click "**Print Invoice**" to generate a clean printable receipt for shipment packaging.

5. 🔄 Returns & Exchanges

Review and process customer size exchange and return requests. Path: `/admin/returns`

- Review customer reasons and photos.
- Click **Approve** or **Reject** with reason.

- **Automatic Inventory Restock:** When an order is cancelled or a return is completed, inventory counts automatically restore back into product stock!

6. 🏷️ Coupons & Discount Codes

Create promotional voucher codes. Path: `/admin/coupons`

- Set Coupon Code (e.g., WELCOME10 or GOLF500).
- Select Discount Type: **Percentage (%)** or **Fixed Amount (₹)**.
- Set Minimum Cart Order Amount and Expiry Date.

7. Category Filters & Settings

Path: `/admin/category-settings`

- Control storefront filter sidebar checkboxes per category page (Flex, Loft, Size, Gender, Brand).

8. Promotional Page Settings

Path: `/admin/settings`

- Edit global top Announcement Marquee Bar text.
- Customize Category Best Brands spotlight grids and subcategory cards.

9. Customer Broadcast Emails

Path: `/admin/broadcast`

- Compose and send promotional announcement emails to all registered store customers.

10. Brands Directory

Path: `/admin/brands`

- Add manufacturer brand names and logo images (*TaylorMade, Callaway, Titleist, Nike, Adidas, Puma, Mizuno*).

11. Customer Directory

Path: `/admin/customers`

- View customer profiles, contact info, total orders placed, and lifetime spend (₹).

12. Admin Best Practices

-  **Upload Crisp Photos:** Use clear product photos on light/white backgrounds.
-  **Add Courier Tracking Promptly:** Always enter courier names and tracking numbers when marking items as *Shipped*.

- **✗ Never Delete Active Products:** Set Stock Count to 0 or toggle inStock to Off instead of deleting products with order history.
